Change of use and extension to provide a 419sqm convenience store and up to 3 further flexible units

14 The Cross, Neston

Change of use from shop to Hot Food Takeaway

Health Impact Statement

Health Impact Statement
Health Impact Statement
Introduction
<p>The Local Plan (Part Two) Policy DM 29 requires development to take every reasonable opportunity to promote and positively contribute to the health of the borough. The policy requires a statement considering health implications of commercial and residential development should be submitted, with mitigation of negative impacts made proportionate to the scheme. This table will form the basis of the statement and be shared with the Council's Public Health team, who will review it, informing their comments on a planning application and advising the Case Officer. In certain circumstances, further information or assessment may be required, especially where significant impacts are likely. The Case Officer will advise if this is required.</p> <p>This will need to be filled in for all major developments.</p> <p>Please provide your answers in the box following each question (including any comments/additional information you wish to provide).</p> <p>The information gathered below will help applicants demonstrate how the development meets the above policy. All relevant policies referred to below can be viewed on our website along with made Neighbourhood Plans and other planning documents: http://consult.cheshirewestandchester.gov.uk/portal/cwc_ldf/adopted_cwac_lp/</p> <p>Site address</p> <input type="text"/>
