# A marathon in a sprint

Quick overview of:

1. What I used to think of the health system
2. What many housing system leaders think today
3. What I am hearing health system leaders say about housing organisations
4. Where do most health inequalities exist?
5. How you can find great partners in housing
6. Where health & housing organisations work together well now
7. Hope for the future

# Where do most health inequalities exist?

Concentrations of social housing

Low value private rented housing

Some rural communities

# How can you find great partners in housing?

- Place Shapers
- Place based housing organisations
- Look for mission
- Not about size

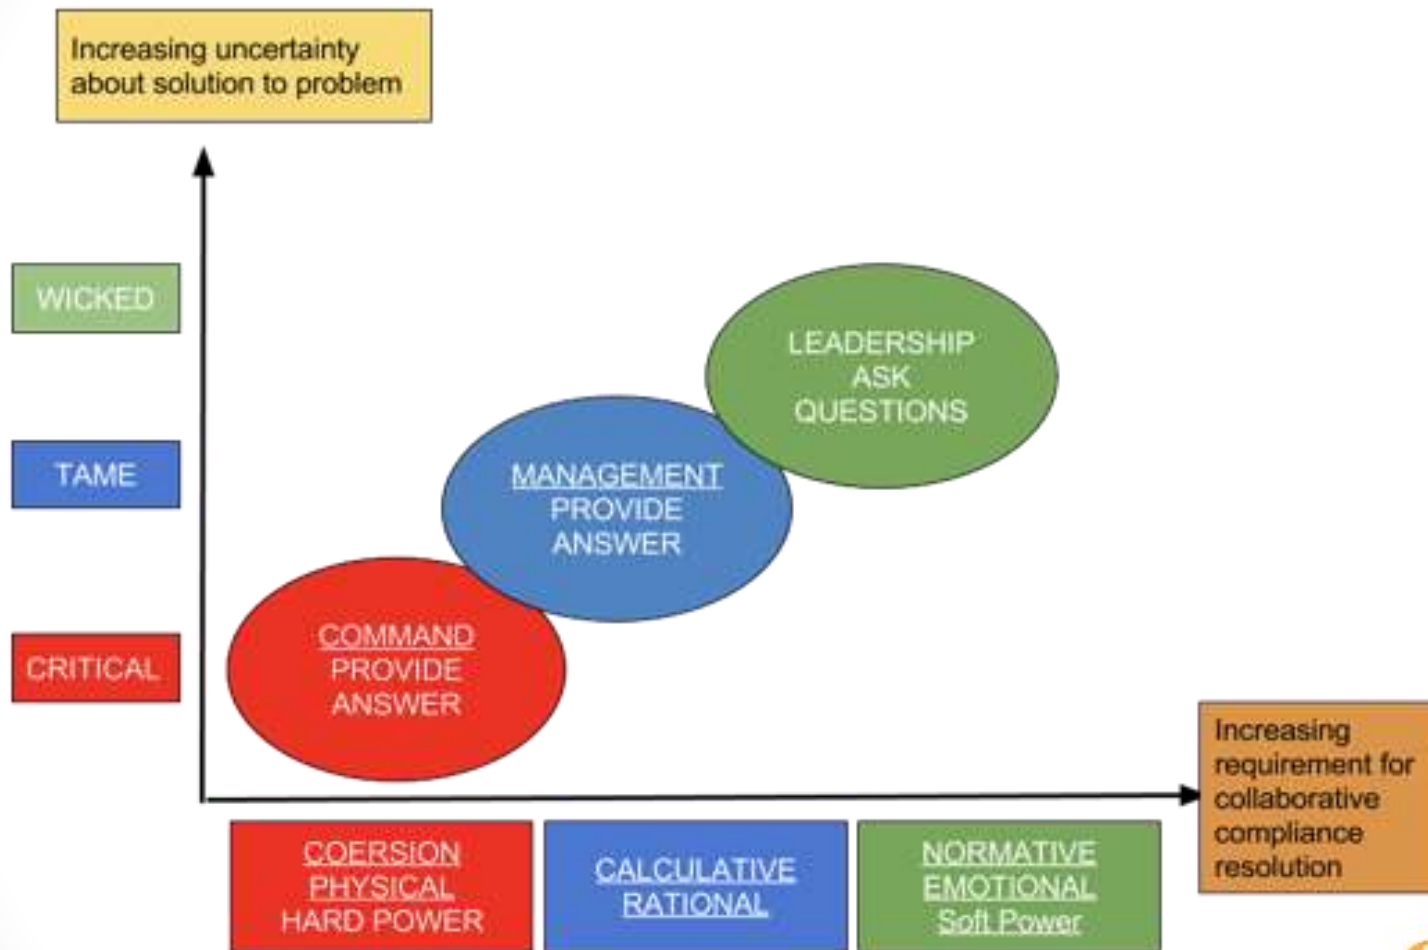

# Where do housing & health organisations work together well now?

# Hope for the future

# Hope for the future

## VALUES into ACTION

- Values inspire action through emotion.
- Emotions inform us of what we value.
- Decisions to act follow emotional judgements about values.

Hope for the future

*One narrative*
